Dear,

It is with great pleasure I am sending this recommendation on behalf of Shane Adams for admission into Evergreen State College Master of Environmental Studies program. During his tenure at Washington State University (WSU) I had the opportunity to interact with her as a student and an intern in the Environmental Health and Safety Department. In both settings I was impressed at his willingness to learn and interact with fellow students and WSU staff, and I am confident he will be an asset to your program.

Shane is naturally goal oriented. He demonstrated the ability to set a goal, determine the steps required to reach the goal, and execute the developed plan. His leadership, communication skills, organization, and time management allowed him to be successful in the classroom in both group settings and individual projects. His aptitude and creativity was evident in his work.

During his time as an EH&S intern, Shane eagerly participated in all aspects of EH&S work and constantly engaged staff on the nuances of the different programs. His energy permeated throughout the staff. He played an integral role in establishing WSU's Sustainability website communicating the important programs and changes occurring on the Pullman campus.

As evident in Shane's resume and entrance letter, he is highly motivated and values education. Shane did not take any of his responsibilities lightly and made the best of every opportunity to serve as an avenue for growth in his personal and professional life. Shane is bright, driven, and charismatic. His desire to obtain a Master's Degree in Environmental Studies seems to be a perfect fit. I have no doubt Shane will flourish in Graduate School at Evergreen State College. I would love to answer any questions or provide further clarification, should you have any.

Thank you for your consideration.

Jason Sampson
