To Whom It May Concern,

My name is Steve Schmidt, Head Soccer Coach at The Evergreen State College. Please accept this letter as a recommendation for Colin Hauser's admission into the Masters of Environmental Science program at Evergreen.

I was fortunate enough to work with Colin as goalkeeper for our Men's Soccer team during his senior year here at The Evergreen State College. One of the things that initially struck me about Colin was the consistency of his work rate. We needed our goalkeeper to be able to execute different difficult tasks and Colin was always up for the challenges and demands of the collegiate soccer season. He excelled in his communication in high-stress moments, Colin as our goalkeeper was expected to quickly, concisely and accurately relay information to teammates on the field. This level of communication was crucial to our team success. He also showed high proficiency levels in quantitative analysis within the game of soccer. Much of the game is about understanding how many people are in different spaces, and evaluating threats based on that analysis. Colin was excellent at analyzing the numbers of offensive players in particular spaces and relaying information to the defense based on the numerical picture in front of him. It is critical for the goalkeeper to be good at this because they are the only people that can see the whole field due to their perspective of the game.

Colin also showed amazing ability to play through adversity. Colin had multiple injuries during the season. Despite that, he ended up playing every minute of every match, as we clinched ta birth in our conference playoffs for a school record 8th straight season, Colin consistently demonstrated high level critical decision making that often kept our team in a position to compete at all times.

Colin earned all-conference recognition for his performance on the field as well as being listed on the academic all-conference list for his success in the classroom, which epitomizes what it means to be a successful student athletes here at Evergreen.

If you have any further questions about Colin, please feel free to reach me at the contact information listed below.
