To Whom It May Concern:

Deisy McGinn is an excellent student. She is extremely intelligent and has a strong intellectual curiosity. Deisy would be well suited for graduate study. Deisy was a student in my Introduction to Geospatial Technology (GIS) course in the Fall of 2022 and as the GIS program advisor, I have had an opportunity to get to know her both in class and out.

In her work in my class, Deisy demonstrated a tenacious drive to achieve a complete understanding of the project. For the final project in my GIS class, students were asked to apply GIS technology to solve a spatial question for a hypothetical client. Deisy's project was technically outstanding, and beautifully presented with a series of very high quality cartographic products integrated into an ArcGIS Story Map.

Deisy's strengths include an outstanding intellectual curiosity, the ability to work independently as well as with groups, and strong organizational and problem solving skills. Deisy also works well in teams. I would strongly recommend Deisy McGinn for admission to your graduate program.

Sincerely,

K. Allison Lenkeit Meezan
