

MEMORANDUM

TO: Evergreen's Master of Environmental Studies Program Admissions Committee:

FROM: Natalie Smith

DATE: December 12, 2022

SUBJECT: Calculus Class in Progress

I am excited to be considered for the Environmental Studies Program at Evergreen. This memo is to bring attention to a calculus class I have recently completed that, as of this date, does not appear on my official UCLA Extension transcript, as grades have yet to be submitted.

UCLA Extension provided me with an unofficial transcript that includes this class (listed as in progress) as proof of enrollment, and I have attached it as the second page of this memo.

Again, I am enthusiastic about your program and am thrilled to be taking this exciting step toward advancing my career in conservation. Thank you for your time and for considering this class when reviewing my academic record.

Kindly,
Natalie Smith
