SUSTAINABLE BUILDING SCIENCE TECHNOLOGY

SBST

June 28, 2023

Dear Dr. Francis:

It is my great pleasure to provide this letter of recommendation for Gillian Williams. I have known and worked with Gillian for the past four years, as a fellow student and, more recently, as her advisor at South Seattle College. In both capacities I have seen Gillian as a focused and enthusiastic student. She has been on the Dean's list or the President's list for all of her quarters here at SSC. I have also seen her go from knowing very little about air barrier testing to being able to instruct others through the Air Barrier Association of America in less than a year. She has strong communication skills, dives deep into subjects she needs to understand, and is open and flexible to new opportunities and situations.

I have been impressed by Gillian's ability to work with all kinds of people in diverse situations. Her mind is facile, and she takes on challenges head on. She communicates clearly with others and does not hesitate to step in if she can help. I cannot recommend her highly enough. She would be a great addition to the Master of Environmental Studies program.

If you have any further questions or need more information, please feel free to contact me.

Sheila A. Roe
