GRADE POINT AVERAGE CALCULATION:

To calculate a grade point average, divide the total number of semester hours attempted into the total number of grade points. The grade point average is carried out two decimals (2.00) and is not rounded up or down.

COURSE NUMBERS:

Previous numbering system used three digit course numbers. Current course numbers consist of four digits. The first digit indicates the year level of the course. For example, 1000s freshman; 2000s sophomore; 3000s junior; 4000s senior; 5000s masters; 6000s advanced, post-masters and doctoral; 7000 and 8000s doctoral.

The second digit indicates the credit value of the course, except in the case of three-hour courses, where the second digit may be three or any number from six to nine. For example, 1111, one-hour course; 1211, two-hour course; 1311, 1611, 1711, 1811, 1911, three-hour courses; 1411, four-hour course; 1511, five-hour course.

The last two digits serve to distinguish one course from another within a division/departement.

ACADEMIC FRESH START (AFS):

Students may elect under the University's AFS Program to have all academic course work completed ten or more years prior to the semester of election removed from consideration by the University for any academic purpose including, but not limited to, cumulative grade point average, academic classification, academic standing, course prerequisites, degree requirements, eligibility for graduation, and honors standing. Courses affected by AFS are indicated by the grade symbol of ^.
