**Subject:** Recommendation for Ian Mann

February 9, 2024

To Whom it May Concern,

Ian Mann was an employee under my supervision from January through October 2019 during the Camp Fire Project in Paradise, CA. During this response, Tetra Tech was responsible for environmental remediation from the most destructive wildfire in California history. Ian worked as an Environmental Unit Leader with the Environmental Site Assessment and Soil Sampling Divisions during the cleanup of 13,000 fire damaged properties.

Ian was very dedicated and committed to working long hours while on this project. He was consistently reliable and punctual under the demanding work schedule of 12-hour shifts, 6 days a week. He was always willing to assist with any task and I can attest to Ian's attention to detail, whether he was conducting site assessments, soil sampling, or data review.

Ian is an exceptional candidate for Evergreen State's Master of Environmental Studies. If I can be of further assistance, or provide you with any further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Drew Sloan".
