

Subject: Petition for Social Science Requirement at The Evergreen State College

Dear Admissions Committee,

I am writing this petition for consideration regarding the Social Science Requirement at The Evergreen State College. During my undergraduate studies, I successfully completed three courses - Ethics, Aesthetics, and Principles of Sustainability. These courses have enriched my understanding of human behavior, ethical decision-making, and sustainable practices, providing me with a holistic perspective on social issues that I believe aligns closely with the objectives of the Social Science Requirement for the Master of Environmental Science Degree Program.

I bring extensive expertise in geography, map reading, land navigation, and leadership skills honed during my Marine service, enabling me to analyze complex situations, navigate diverse terrains, lead teams efficiently, and contribute meaningfully to any situation I am a part of. My practical knowledge and proficiency in geography and leadership will be valuable assets.

Thank you for considering my application.

Sincerely,

Thomas J Mason
