---

Data Analysis, ROV operation, Public Outreach and Communications, Photography, Grant Writing, Customer Service, Marine Species identification, Laboratory techniques, Husbandry, and Basic GIS systems.

---

### Experience

---

#### Evergreen State College / Research

January 2023 - PRESENT, Olympia

I currently working on a research project, with Professor Erik Thuesen, on microplastics and different shellfish that can be found in the Puget Sound. This project focuses on the digestion of microplastics and how the effect filtration rates. I am getting hands-on experience unlike before and preparing for future careers in a research laboratory setting,

#### Puget Sound Estuarium / Intern

July 2023 - PRESENT, Olympia

At the Puget Sound Estuarium, I am gaining experience in the environmental field and learning many different skills and performing several different tasks; such as:

- Grant Writing
- Outreach
- Environmental Education
- Marine Animal Identification
- Animal Husbandry

#### Concern for Animals / Volunteer

February 2023 - August 2023, Olympia

At Concern for Animals, I learned about data entry and performed receptionist tasks such as filing, answering the phone, logging calls, etc.

---
