Payton Kammerer
Visitor Experience Coordinator
Puget Sound Estuarium

Dear Evergreen Admission Committee,

I am writing to express my wholehearted recommendation of Enija Reed for the Master of Environmental Studies program at The Evergreen State College. I'm the Visitor Experience Coordinator at the Puget Sound Estuarium, where Enija has excelled as a Lead Interpreter and exhibits development intern.

As part of our team, Enija has demonstrated passion for environmental stewardship, as well as the skill to spread that passion to members of the public. They have effectively communicated complex ecological concepts to diverse audiences, fostering a deeper understanding and appreciation for our marine environments.

Through our exhibits team, they have employed the organizational skills, creativity, and attention to detail necessary for professional work. Enija happily completes any task assigned to her, producing exhibit content that exceeds expectations in a timely manner.

As their resume suggests, Enija has a strong academic background and hands-on experience in marine science. Without a genuine grasp of estuary ecology, she wouldn't be able to translate the academic concepts we cover to something meaningful and memorable for the general public. Enija's wholehearted success in this task demonstrates true mastery of marine science concepts.

Based on their outstanding performance and dedication to the field of marine science and environmental education, I am confident that Enija will excel in your program. Their dedication to making a positive impact on our marine ecosystems combined with their can-do attitude make them an excellent candidate for further academic and professional development in this field.

I strongly endorse their application and eagerly await the contributions they will make to your academic community.

Please do not hesitate to contact me if you require any further information.

Sincerely,
Payton Kammerer
