I am delighted to give my strongest support to Analiese Terrell in her application for graduate school. I have known her for over 2 years as her professor in my environmental restoration class. I have also talked with her about a career and on research ideas.

Analiese was a very good student. I work with many students and she has a surplus of natural curiosity and enthusiasm. Importantly, she is also very reliable and can work without oversight. She has an excellent work ethic. I have no doubt she will do well in graduate school. In the classroom she will be self-motivated and eager to learn. She is also mature and has a strong sense of what kind of career she wants to have.

Outside of the classroom she is even more exceptional. She has been involved with several major campus activities and has demonstrated outstanding organizational and leadership skills.

I would rank Analiese in the top 25% of undergraduates that I have worked with in my 38 years here at UTK. I have no doubt she will succeed in graduate school wherever she attends. I would gladly work with her, if the opportunity arose.

If you have any questions please contact me.

Sincerely,

Michael McKinney
