Dear Graduate Admissions Team:

I am submitting the letter of recommendation on behalf of Ms. Kathy Wright who is actively seeking entrance into your Master of Environmental Studies program at Evergreen College so that she may experience your reputation for being an institution for innovative teaching, academic excellence and environment leadership as she continues to develop into the master student she is destined to become. I have had the pleasure of watching Kathy flourish on the campus of Tacoma Community College as its sole leader of the campus sustainability garden efforts for the last three years.

Kathy has consistently demonstrated and advocated with campus community partners of her passion for learning and leading in environmental progress. She has been an active member of the Tacoma Community College campus where her efforts working with the sustainability garden has yielded opportunities for students to reap from the harvest via their campus food pantry efforts. She has been recognized over and over for her commitment to excellence and care exemplified for the community. I believe this program will continue to motivate and supply her with the tools to create greater sustainability resources in the community of her choosing. She has demonstrated strong leadership skills, volunteered throughout the community, and is hungry to gain additional knowledge.... this is why I offer my full support for Kathy.

I am extremely confident that Kathy will make significant contributions to your institution and continue to excel in her academic pursuit. I proudly support and endorse her for entrance into the Master of Environmental Studies program and will be available to assist in any way possible to fulfill her dreams. Should you have additional questions of me, please contact me at either kmoore@highline.edu or call 617.543.4024.

Sincerely,

Keith E. Moore
