RE: Recommendation Letter for Hunter Adelson – Masters in Environmental Science

To Whom it May Concern:

This letter provides my whole-hearted support for admitting Hunter Adelson into your Masters in Environmental Science Program. I am an Instructor in the University of Washington Certificate in Wetland Science and Management (WSM) Program where I teach Wetland Science and Ecological Processes and Wetland Identification and Delineation. I am also a Senior Environmental Scientist with King County Road Services Division.

I had the pleasure of working with Hunter during the Fall 2023 and Spring 2024 quarters while he was enrolled in the WSM Program. Hunter was an attentive and inquisitive student, always engaged during classroom and field sessions and at the ready with clarifying questions. He proved to be studious and diligent. His work was always complete and thorough, demonstrating a good grasp of the material. Hunter's final presentation for the program was on the emerging science of stormwater wetlands and 6PPD-Q, a complex topic that demonstrated Hunter's ability to be a self-directed learner and take on challenging environmental issues.

I have no hesitation about recommending Hunter for your program. I know he will benefit from and excel within this multidisciplinary setting. Please do not hesitate to reach out if you require additional information.

Sincerely,

Tanner Harris
