Admissions Team
Evergreen State College
Olympia, Washington

Dear Admissions Team,

LETTER OF RECOMMENDATION

I am pleased to write this letter in strong support of Yaw Darkwah Amoateng's application for the Master of Environmental Studies program at the Evergreen State College. I have known Yaw for two years as his supervisor at the Ghana Wildlife Society. During this period, he consistently demonstrated a strong work ethic and a deep commitment to his professional goals.

Yaw stands out for his exceptional proficiency with digital tools. His ability to learn and apply complex technologies shows his strong potential for advanced environmental research. He has consistently approached conservation challenges with creativity and practicality, skills that will serve him well in his future studies and career.

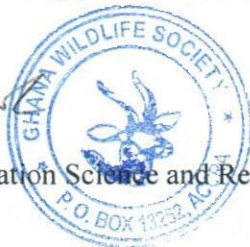

An example of Yaw's technical capabilities was demonstrated during the implementation of the "Enhancing Habitat Conditions and Ecosystem Services to Improve Ecological Connectivity in the Mole Ecological Landscape" where he took on the critical task of using GIS to create land-use and land cover change maps of the project area. He demonstrated exceptional skill in gathering and analyzing the spatial data, producing accurate, insightful maps that played a key role in guiding our restoration efforts.

Throughout his time with us, he displayed an admirable ability to learn quickly, think critically, and work diligently. His problem-solving skills and commitment to conservation made him an indispensable member of our team.

Yaw's strong teamwork, passion for environmental issues, and critical thinking skills make him a promising candidate for your program. I am confident that he will thrive at the Evergreen State College and continue to make meaningful contributions to the field of environmental science. I therefore strongly recommend him for admission and scholarship.

Sincerely,

Richard Appoh
Director of Conservation Science and Research
