

Petition for Waiver : Natural Sciences

I hereby request a waiver on the requirement for four credit hours of courses in natural sciences as, while it falls outside the five year mark, I have taken during my undergraduate time at Evergreen and received credits for qualifying coursework as follow: Conservation Biology in Agriculture and Conservation in the Pacific Northwest in 2012 and 2013 (4 credits received), and credits in Ecology, Animal Science and Plant Science in spring of 2013 in Ecology of Grazing and Grasslands in the Pacific Northwest (12 credits received, 4 of them upper division).

I feel confident that that experience as well as my ongoing work and personal study within the field of agriculture remain current.

Thank you for your consideration.

Fey Boss
