

Petition for Waiver : Social Sciences

I hereby request a waiver on the requirement for four credit hours of courses in social sciences as, while it falls outside the five year mark, I have taken and received credit for coursework qualifying during my undergraduate time at Evergreen and feel confident that that experience as well as my ongoing work and personal study remain current.

I offer particular emphasis to my personal work and study as regards the conflicts in policy and administration which exist between stakeholders and state and federal government, which I touch upon in my submitted writing sample.

Qualifying coursework is included in my transcript from Evergreen under Agriculture and Conservation in the Pacific Northwest from September 2012 to March 2013 in the component of ethics (4 credits received) as well as under Environmental Issues and Agriculture (also 4 credits received) during that same period.

Thank you for your consideration.
