Dear Graduate Admissions Committee:

It is my pleasure to recommend Fey Boss for admission to the MES program. Fey was a student in several of my math classes here at Evergreen. Fey's work throughout these classes was exceptional. Fey consistently demonstrated a high level of commitment and professionalism in their work as a student and as a member of our learning community. Fey is extremely intelligent and knowledgeable and easily communicates that knowledge to others.

Fey works very well with a diverse group of students. Fey consistently demonstrates the ability to learn new concepts quickly and adroitly apply them to a variety of new situations and problems. Fey has a strong aptitude in mathematics and has the discipline to actualize that aptitude.

Fey is conscientious, responsible, and very easy to get along with. Fey takes responsibility for their work, asks for help when needed, and contributes to the class in insightful and positive ways. Fey's outstanding intellect, work ethic, and ability to be a positive community member are all indicators of Fey's future success as a graduate student.

Evergreen was lucky to have Fey as a student and will be equally as lucky to have Fey as a member of the MES program. Fey exemplifies a hard-working and successful student and is worthy of your acceptance.

Please feel free to contact me if you have any further questions.

Sincerely,

Vauhn E. Foster-Grahler
