To Whom It May Concern:

I am pleased to offer my enthusiastic recommendation for Fay Boss. I have had the pleasure of knowing Alex as both a student and employee at the Quantitative and Symbolic Reasoning Center (QuaSR). She is an excellent scholar and her work as peer tutor is outstanding.

As a student Fay creates work that is thorough and well-reasoned. She has excellent reasoning skills that she expertly applies to solve problems. Fay works well with classmates and works as a leader in group projects. Fay is perceptive, sharp and has a high aptitude for math and science. This commitment to collaborative learning opportunities infuses Fay's work academically and professionally, making her an ideal team member for collaborative learning.

As a tutor Fay is able to communicate mathematical concepts to a wide range of students. Fay is able to adapt and modify her approach to meet the needs of our diverse student base. She takes feedback from myself and other students well, and immediately incorporates that feedback into her tutoring style. She is eager to share her knowledge and skills with her peers and does so in a way that supports the QuaSR's mission to promote equitable outcomes across gender, race and background in science and mathematics.

Fay has my enthusiastic recommendation for admission to your program. She has demonstrated excellence in all that she does, whether it is learning new material, collaborating with others or helping other students do the same. Her commitment to excellence in education will make her a valuable addition to your incoming cohort. Fay will be a leader in your learning community and will be an outstanding addition to your program.
