To Whom It May Concern:

I'm writing to express my support for Gina Jarasitis for enrollment as a graduate student in the Master of Environmental Studies program at The Evergreen State College. Gina was a student in my MES Fire Ecology and Society course in Fall 2024.

Gina is a self-motivated, curious, and devoted student. In the Fire Ecology course, Gina completed all of her assignments on time (typically ahead of time), utilized creative strategies for seminar (designing a unique board game to encourage discussion and thought about the interactions between fire, land management, and climate change), and submitted well-written, well-cited, and comprehensive reading summaries and reports. Gina also responded well to feedback, incorporating edits and recommendations to improve her final paper and her final presentation. Gina needed to miss three class sessions due to previously scheduled trips so she coordinated alternative make-up assignments well ahead of time to incorporate the topics covered in class into her travel experiences.

I have full confidence that Gina will be able to apply her education and experience to successfully complete a master's thesis and I highly recommend Gina for MES Program at The Evergreen State College.

Please don't hesitate to get in touch if you have any questions.

Sincerely,

Sarah Hamman
