## Letter of Recommendation

To Whom It May Concern,

I am pleased to provide this letter of recommendation for Jon. He has demonstrated a strong initiative in embracing ecological principles and natural processes, consistently going above and beyond in both the planning and implementation of projects.

I have had the opportunity to work with Jon in multiple capacities-first as a student, then as one of the leads for Green River College's Free the Green group, and finally as an employee. In all these roles, Jon has proven himself to be driven, innovative, and a valuable contributor.

Jon consistently takes the initiative to think outside the box and challenge the status quo. He is always seeking ways to refine processes to improve efficiency and productivity. His ability to identify innovative solutions and implement them effectively makes him stand out as a forward-thinking leader.

During his time with King County Parks, Jon has actively pursued opportunities to expand his skill set by working with multiple teams, each with different areas of focus. This diverse experience has given him a well-rounded perspective on park maintenance and allowed him to deepen his knowledge of King County Parks operations.

It has been a privilege to work with Jon, and I highly recommend him for admission to Evergreen College. Please don't hesitate to contact me if you need any additional information.

Best regards,

Brian Lund

Restoration Program Manager
