To the MES Admissions team -

I'm writing to heartily recommend Michael Mowry for the MES degree program. Michael is a determined and values-driven individual with self-motivation and the ability to work effectively with a wide range of personalities. They are intentional and hard-working, and would apply themselves fully to their work in MES.

Michael was a multi-year student employee w/ Electronic Media and earned an internship position (as Production Intern) during their last year as an undergraduate student. During their time with EM, Michael displayed consistency, commitment to growth, accountability, and dedication to building community, both within their cohort and the greater EM student worker community. Michael was a central part of their cohort's success. During their year as intern, they displayed strong communication skills and were proactive at dealing with various technical and operational issues.

As a Greener grad and former college employee (who regularly worked with MES staff), I have a sense of what is expected of Evergreen grad students and also the types of individuals that thrive at the college. I can say with conviction that Michael would be a good fit for MES and would be an asset to the upcoming MES cohort.

Respectfully,
Ben Hargett
