Repeated Courses

Under unusual circumstances and the following conditions, a student may repeat a course for which she received a D: 1) She must obtain written approval of the program chair and the approval of the assistant dean of the college. If a student withdraws from a repeated course, the original grade will stand in her GPA and on her transcript, and she cannot exercise this option again; 2) The final grade for a course repeated with this special permission will be substituted in the calculation of the GPA, even if it is an F, but both grades will appear on the transcript. Repeated courses may not be taken pass/fail; 3) A repeated course will only count in the cumulative academic credit once.

Students may repeat courses for which an F was received. Both the F and the grade for the repeated course will be used in the calculation of GPAs.
