The Evergreen State College
Graduate Admissions Office
Online Submittal

Dear Evergreen State College Graduate Admissions Office,

I am writing to recommend Bryan Perrenod for admission to The Evergreen State College Environmental Science graduate program. I have had the privilege of working with Bryan for nearly two years at the Washington Department of Natural Resources, where he has served as the staff support for the Wildland Fire Advisory Committee, which I chair. Bryan has consistently demonstrated exceptional abilities and performance in this position, and I am pleased to endorse his application to the Evergreen Graduate School.

Bryan has made significant contributions to our work with the Committee. He has proactively researched and remained abreast of evolving legal requirements for managing committee work that necessitates equitable and open public engagement. Additionally, he has developed and implemented a highly effective meeting note-taking approach that has enhanced our ability to maintain the Committee's focus, document our work, and disseminate it to the public.

What has most impressed me about Bryan though is his interest in learning about the work of the Committee. He possesses a strong drive to learn about the complex issues we address in the fields of natural resources and wildland fire management science and policy. This drive has been evident since I first began working with him, and I have greatly appreciated the discussions we have shared on these topics. I am very happy that he has now taken the initiative to apply to the Environmental Science Program, where he can channel his passion for learning and develop his capabilities to contribute to this work at a more advanced level.

In conclusion, I firmly believe that Bryan would be an invaluable addition to the Evergreen Graduate School. His drive to learn, initiative, and ability to manage tasks effectively would make him an asset to the program. I am confident that he would be a very successful graduate of the school and would bring substantial value as a natural resource professional in the subsequent stages of his career.

Sincerely,

A handwritten signature in blue ink, appearing to read "Allen Lebovitz", is written over a light blue circular stamp that partially overlaps the signature.

Allen Lebovitz
Chair, Wildland Fire Advisory Committee
