I am very pleased to recommend Lily Storbeck for Evergreen State College's Master's program in Environmental Studies. Lily was an intern in my program from April to September 2024. During this time, she took detailed scouting notes in raspberry fields, helped establish and maintain on-farm field research plots, and evaluated plots for a wide array of insects and fungal pathogens. She was tremendously capable and organized. Lily worked responsibly on her own, and was also a delight to work with in a group. Her skills, thoughtfulness and positive attitude will make her a valuable asset to your Environmental Studies program.

Warmest Regards

Tom Walters
