*Deepening the connection between land, people, and salmon through restoration, education, and research.*

December 23, 2024

Evergreen State College  
Master of Environmental Studies Program  
2700 Evergreen Parkway NW  
Olympia, WA 98505

Dear Review Committee:

I am writing to recommend Sabrina Wilk as a candidate for the MES Program at Evergreen State College. Sabrina has worked for the Hood Canal Salmon Enhancement Group (HCSEG) as a Stewardship Manager since April 2022. She works closely with state, county and local organizations as well as tribal representatives, contractors and volunteers to manage many of our large restoration and noxious weed control projects in the Hood Canal. Many of these programmatic projects require routine analysis and concise reporting of spatial and quantitative data to demonstrate work completed. Her skills demonstrate an aptitude for effective project management as well as collaboration with multiple entities to reach a holistic approach to environmental challenges.

Sabrina has a passion for the environment. She is a natural leader who possesses an astute awareness of natural systems and their ecology. Sabrina is motivated and hard-working, two fundamental important characteristics to achieve one's goals and acquire the necessary knowledge to successfully complete habitat restoration work.

In all interactions, Sabrina demonstrates key qualities of professionalism, directness and focus. She works diligently and independently, and is efficient at managing time and responsibilities. She is capable of dealing with both varied and challenging environments as well as various and challenging personalities. She has an inner vigor and character that one achieves through devoted commitment and follow-through of goals.

I am pleased to give my highest endorsement for Sabrina to continue her educational pursuit of a Masters of Environmental Science. She will make a fine candidate for your program, while enhancing her value at our organization and putting her knowledge to use in the field of restoration and stewardship.

Sincerely,

Mendy Harlow
