To Whom it May Concern,

I have now had the pleasure to work with Esra for the last two years and watch them learn and grow as a counselor, team member, communicator and person. Esra came to Haven House excited to learn and take on new tasks and over time has become a detrimental part of what keeps us running on a regular basis.

Esra excels in finding ways to connect with the youth we serve and always finds new activities to engage them with. Esra also holds positive and supportive work relationships with their peers and has been a creative and multitalented addition to our team.

As lead counselor at Haven House, I am consistently impressed by Esra's dedication to serving our youth and doing everything in their power to make those around them feel safe and taken care of.

Esra is reliable, committed, has an impeccable work ethic, and never has to be reminded of tasks as they are incredibly self driven to get things done quickly and efficiently. Esra follows protocol to a T and writes clear, detail oriented case notes. They utilize creative problem solving, regularly taking initiative with new projects and I have faith that they will excel in anything that they put their efforts into.

Esra's care for the youth and team shines brightly and I cannot recommend them enough.

Sincerely,

Lauren Sitz
