To whom it may concern:

My name is Michael Thyron. I am a teacher and retired soccer coach at Prairie High School in Brush Prairie, Washington. My purpose in writing this letter is to introduce and highly recommend Mr. Tristan Glaser, a former student athlete, from Prairie High School. He recently completed his bachelors degree in teaching and is now pursuing a masters degree in teaching and education.

It was a great pleasure teaching and coaching Tristan for four years while he attended Prairie High School. He was one of my German students and he played varsity soccer for three years. Tristan is very mature for his age. He is a highly self-motivated individual and takes great care in being the best that he can be. As a student he did solid work with an emphasis on getting things done correctly. His work was carefully done and one can easily tell that he takes great pride in doing it the right way. Other attributes that set him apart from his peers are his sincerity, integrity, and loyalty. He is always willing to help those that need help. This is rare among today's students. Tristan never takes shortcuts and the more challenging the task the better he prepares. He perceives each new endeavor as a challenge and he always wants to come out on top. This is what will make him an excellent teacher. He is driven to help those that need it most and he has a knack for making the process enjoyable.

As an athlete Tristan is very self-disciplined and he loves to compete. He is always pushing himself and in the process brings out the best in others. He is a fair sportsman and he was a great team leader for the boys varsity soccer team. As a coach I always respected his opinion and insight and I could always count on him to make the best decisions for the team.

In summary, Tristan is a very mature young man that focuses on being the best that he can be while helping others to achieve higher levels. Tristan would make a great addition to your institution. He receives my highest recommendation.

Sincerely,

Michael Rudolf Thyron
