To Whom it May Concern,

I am writing this recommendation on behalf of our beloved student staff member & former volunteer, Alexis Payne.

I am the Admin Assistant at the Evergreen State College Campus Children's Center and I handle new student recruitment, hiring, onboarding, and scheduling. When we first hired Alexis, I could not have predicted the astonishing work ethic that she possesses and the calm, gentle, nature that she carries when working with children. Not only do the children adore her, but new student staff that work alongside her have been learning so much. I've seen Alexis train & mentor new students in the room while simultaneously providing excellent childcare to the children – this is a difficult skill to acquire that takes most student staff *years* to develop, and Alexis has figured it out in a mere 6 months.

Your program would be lucky to include Alexis, and I look forward to hearing about what the Master's in Teaching can bring to Alexis and her work.

Sincerely,

**Page Archer**
