To Whom It May Concern:

It is my pleasure to recommend Kit (India) White as an exceptional candidate for the Masters in Teaching program at The Evergreen State College. Kit was a student in my (taught with Nancy Murray) program, Counting on the Brain at The Evergreen State College. Kit consistently demonstrated a high level of commitment and professionalism in their work as a student. Kit was intelligent and knowledgeable and easily communicated that knowledge to others. Kit worked very well with a diverse group of students. Kit consistently demonstrated the ability to learn math concepts and apply them to a variety of new situations and problems.

Kit was a delightful and fully engaged student. Kit was conscientious, responsible, and very easy to get along with. Kit took responsibility for their work, asked for help when needed, and contributed to the class and group work in insightful and positive ways. Kit is an excellent student, in every sense of the word. Kit is a credit to Evergreen and will be a credit to the MiT program.

Please feel free to contact me if you have any further questions.

Sincerely,

Vauhn E. Foster-Grahler
