individual strengths and

- ACT® test scores and the Composite score range from 1 to 36; subscores range from 1 to 18.
- Your Composite score is the average of your scores on the four subject area tests. Subscores do not necessarily add up to your score for a subject area test.
- Your ranks tell you the approximate percentages of recent high school graduates in the U.S. and your state who took the ACT and received scores that are the same as or lower than yours. A rank of 70, for example, means that 70% of students received scores that are the same as or lower than your score.
- Your test scores are only estimates, not precise measures, of your educational development. You will find more information about interpreting your scores in the booklet you received with this report and at www.actstudent.org.
