CONFIDENTIALITY OF STUDENT RECORDS

GRADE POINTS, CREDIT HOURS, INDEX

The credit hour value of a course is determined by the number of hours per week for which the course is scheduled during a regular semester. In general, one credit hour is given for each hour of class (lecture-recitation) per week and one-third or one-half credit hour for each hour per week of laboratory or courses where outside preparation is less extensive.

Grade points are obtained by multiplying credit hours by the quality points corresponding to the letter grade earned in the course.

For example, a grade of "A" in a three-credit hour course would give a total of 4 quality points x 3 credit hours = 12 grade points. A grade of "B" in the same course would give a grade point total of 3 quality points x 3 credit hours = 9 grade points.

The grade point average is obtained by dividing the total number of grade points earned in all courses by the number of credit hours attempted. Withdrawals are not calculated in the grade point average, but they are listed in units attempted. If all grades are "A," the index would be 4.0; B = 3.0; C = 2.0; D = 1.0; F = 0.0.

TERM HONORS

Full-time students who achieve a semester grade point average of 3.5 to 3.74 will have their names placed on the Dean's List; those who achieve a grade point average of 3.75 to 4.0 are placed on the President's List.

DEGREE HONORS

Degree honors are listed in the Degrees Awarded section of the transcript.

REPEAT OF A COURSE

The cumulative grade point average is computed using only the highest earned grade in a repeated course.

HONORS COURSES

Honors courses are listed as REQ DES (HNRS, HONORS, or HONORS COURSE). REQ DES stands for Requirement Designation.
