To Whom it May Concern,

I am honored that I was asked to write a Letter of Recommendation for Madysen Gonzales Haro's college Master's application. Madysen and I are co-workers, at North Thurston High School, as Paraeducators, and I have been very impressed with Madysen's work ethic, integrity, and her cooperation with other co-workers and teachers.

Madysen works one on one with a student with Cerebral Palsy. and in the classroom, Madysen's creativity and willingness to work outside of her comfort zone to meet the students' academic goals is inspiring and remarkable. Being her student is non-verbal, she has invented different tools to help him communicate with her, his teachers, and other students. This has been critical in her student's success.

Madysen has proven that she has the ability to take advantage of any opportunity that she is given. I believe she is very deserving and will make a positive contribution to whatever program for which she is accepted.
