

Multiculturally Inclusive Adaptation of Summer Camp Theme “Holidays Around the World”

By the time I was hired in March of 2021, it was too late for my input on the themes for the summer camp ahead. What was once known as “Christmas in July” week, I changed to “Holidays Around the World.”

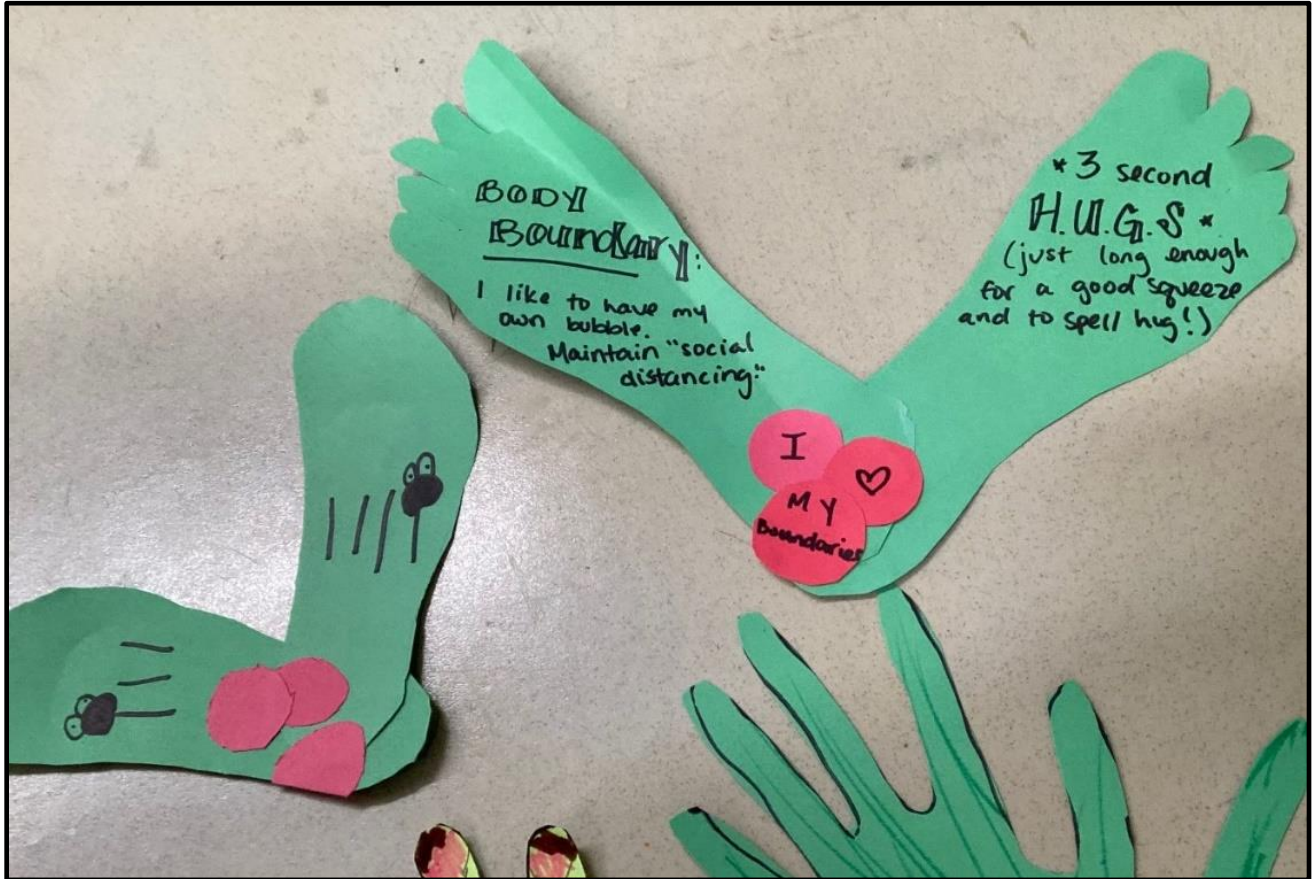

We started by making jumbo holiday trees and for every cultural holiday/country we talked about, I printed coloring and informative activity sheets. I also planned a craft to turn into an ornament for our jumbo Holiday Around the World trees!

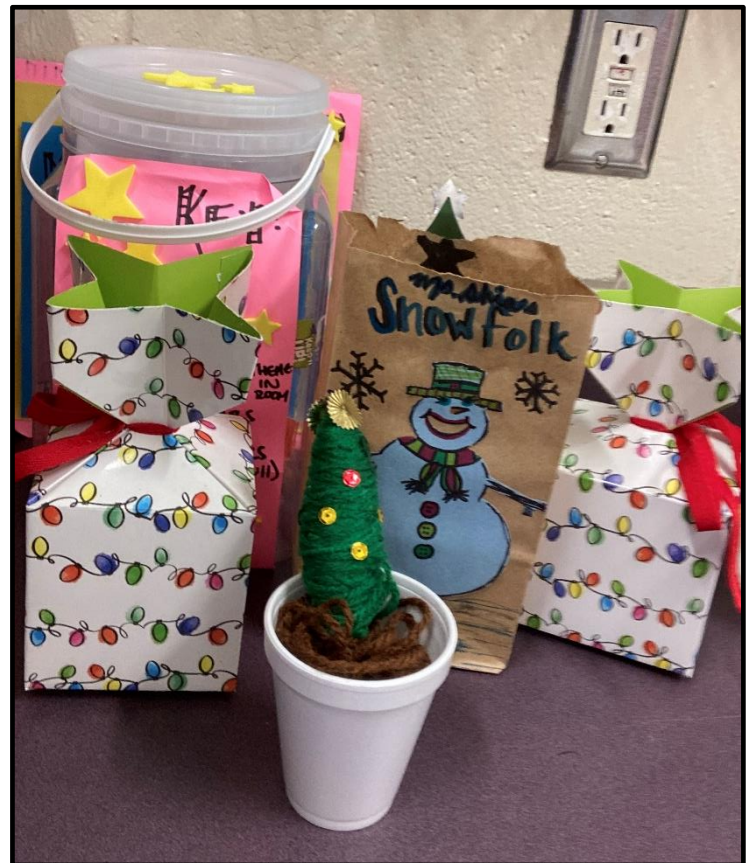

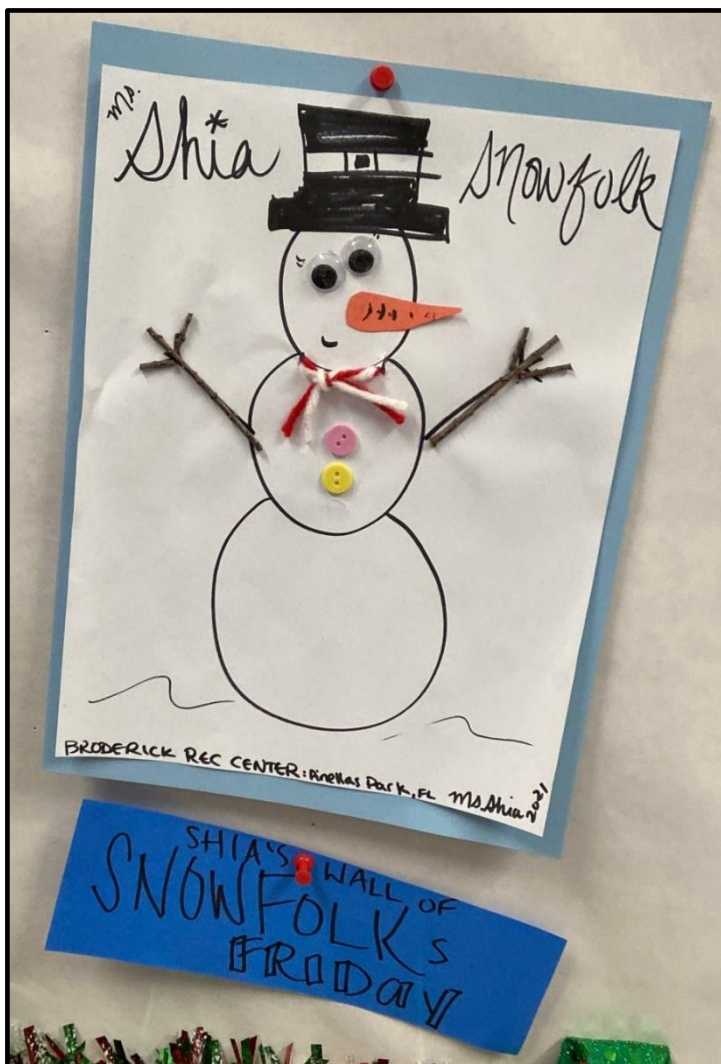

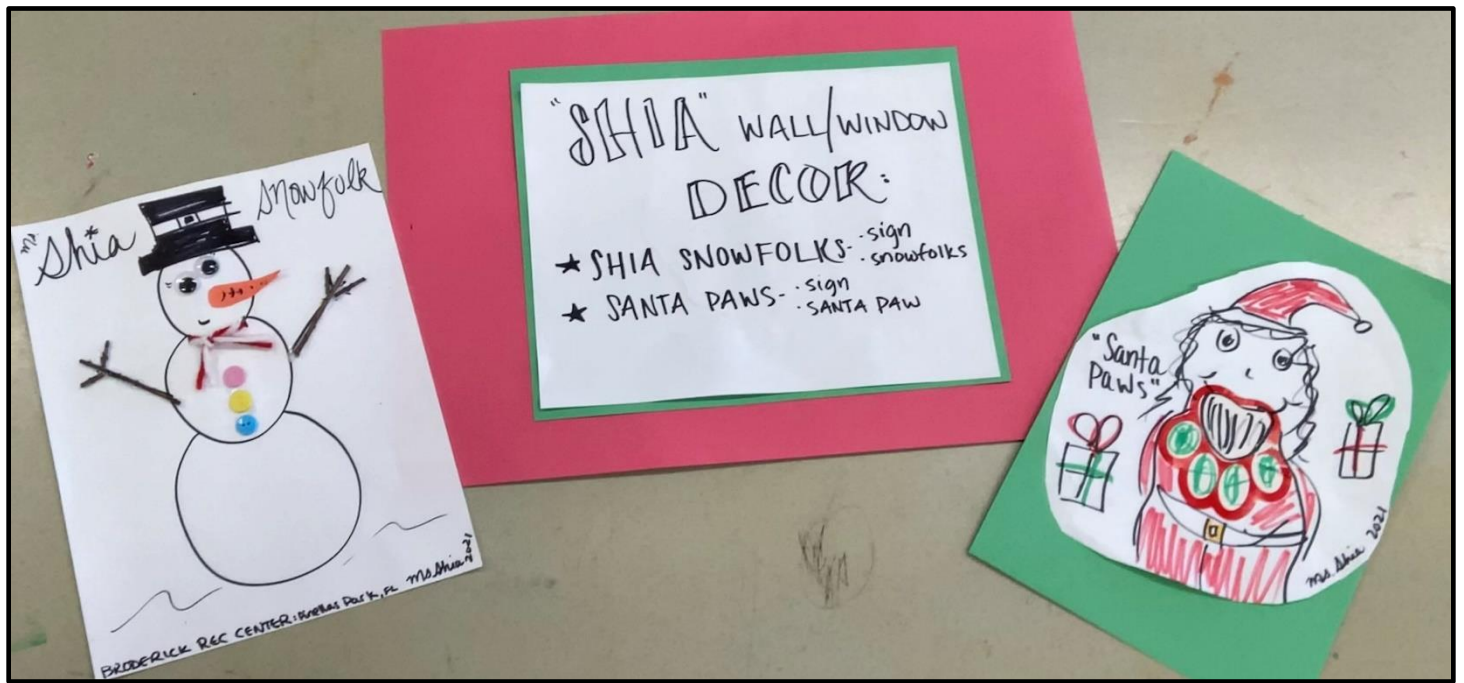

As hard as it was, I picked my favorite craft from each of the cultures we discussed to use as ornaments for my display tree. The other two trees that were displayed were the most detailed and made from those who were thoroughly and consistently interested in learning about other cultures!
