

# Nicole(Kaylee) Mueller-Chapin

## Worldly experience

Being part of a big family I have always been very hands on with the children in my life whether family or friends and working with children has made me more patient, organized, and understanding. It also made me love working with kids by being a positive role model and teacher for them to look up to.

While stationed in South Korea with my wife I helped keep our local spiritual group up and running as well as bring in many more members

## EXPERIENCE
