Dear Lisa Cadero-Smith and Judy Joslin,

I am a student in The Evergreen State College Master in Teaching Program seeking a placement for student teaching in a primary special education room. I had the wonderful opportunity of observing Cass Murphy for one day a week during the winter and spring quarters last year at Southworth. During this time I was able to observe other classrooms and was very impressed with Mrs. Joslin's use of physical space and planning with such a diverse group of children. I am seeking my teaching certificate for K-8 with an endorsement in special education. I would love the opportunity to fulfill my spring student teaching at your school.

It has been my wish to be a professional educator for the past twenty years but my dream was put on hold while raising my own children. I have worked for the past thirteen years for the Yelm School District as a paraprofessional in a Title One program at Mill Pond. I enjoy work that is challenging and diverse and that has fostered my interest in teaching special needs children. I feel my experience working with children who were sometimes years below their reading and math abilities led me to my calling.

I believe all children can learn if met at their learning level and/or style and within a positive learning environment. I enjoy the challenge of differentiating learning material to meet the needs of the students I serve. Investigating current research within special education and differentiating has become a hobby for me due to my master's project, *Teaching children with high functioning Autism*.

As your student teacher, I bring age, wisdom, experience, dedication and commitment. I believe in connecting with children through extra-curricular activities, so I often attend after school functions. At times, I am a perfectionist and believe in staying until the job is complete. An open mind is my motto and an eagerness to learn will compliment my desire to be of assistance in the classroom and to the school at large. I hope that you will consider me for this placement.

Thank you for your time,

Jacquelyn Palmer
