

May 28, 2020

Daniel Gilberts
310 San Mar Dr Rd
Olympia, WA 98506

NEW STUDENT ID: A00375589

Dear Daniel,

Congratulations! I am pleased to inform you, upon recommendation by the Graduate Program on the Environment Admissions Committee, that you have been accepted into the Fall 2020 cohort for the Master of Environmental Studies (MES) degree at The Evergreen State College. I hope you are able to join us!

Your admission to the program is PROVISIONAL because your file does not contain an official transcript indicating you have been awarded a bachelor's degree. In order for you to enroll for the Fall Quarter, the MES Office must receive written confirmation by September 11, 2020 from an official of the awarding institution indicating you have completed the requirements for your bachelor's degree. In addition, by October 16, 2020 the Graduate Admissions Office must receive an official transcript reflecting the awarding of the bachelor's degree in order for you to continue in the program beyond the Fall Quarter. If you are awarded financial aid, please note that your final transcript reflecting award of the bachelor's degree must be received by September 11, 2020 in order for any financial aid funds to be released for Fall Quarter.

Important notifications from the college and MES will be sent to your Evergreen email address periodically, so be sure to set it up immediately and check it regularly. Directions are enclosed. Starting now, we will send out paid internships, jobs, and other opportunities for MES students to your Evergreen email address. Please also keep your mailing address updated by contacting Graduate Admissions: graduateadmissions@evergreen.edu or 360-867-6856.

As a new MES student, you are required to enroll in the first MES core class: graduate Conceptualizing our Regional Environment, or gCORE. All core courses are on Tuesdays and Thursdays, 6-10pm. If you intend to finish in two years, you should also take an elective course along with gCORE. To see more information on our courses, including faculty contact information, please review the MES online catalog at evergreen.edu/catalog/grad/mes.

Fall registration opens June 1st! You will be able to register for gCORE and an elective of your choice through your my.evergreen student account, once it's setup. You may also take summer 2020 courses with MES as a special (non-matriculated) student – up to eight credits of these courses will count toward your degree. To see the courses offered, go to evergreen.edu/catalog/grad/mes. If you have any questions about this process, please reach out to MES Assistant Director Averil Azar at averil.a.azar@evergreen.edu.

This year, the Fall quarter starts on September 29th. We will hold a mandatory orientation on Monday, September 21st, 2020. All new students are required to participate. In mid-August, we will send more details about orientation, and the fall quarter by email and postal mail if you have accepted this offer of admission.

If you applied for MES aid and/or filled out your FAFSA, you will receive a separate message letting you know if you received an award from MES. Loan awards, tuition waivers, and Evergreen Need Grants (residents only) will be sent to you by the Financial Aid office and will come later. If you did not apply for aid or did not fill out your FAFSA, you will still be eligible for loans by filling out your FAFSA at any time. Go to fafsa.ed.gov to apply. MES will host another scholarship application cycle this summer so stay tuned for more updates!

If you wish to accept this offer of admission, please promptly inform Averil Azar, the MES Assistant Director, by emailing averil.a.azar@evergreen.edu. Enclosed are directions to pay your tuition deposit. This non-refundable \$100.00 deposit reserves your space in the program. If you cannot accept this offer of admission, please email graduateadmissions@evergreen.edu to confirm your admissions decision in writing as soon as possible.

We are excited to meet you and share more about the program. We select the incoming cohort of 45 students with considerable care. We hope this opportunity to participate in our program will be meaningful to you. You will be part of a diverse, capable, and dedicated group of people. Please contact me or Averil Azar if you have any further questions. The MES faculty and staff look forward to having you join us in September.

Sincerely,

Kevin Francis, Ph.D.
Director, Graduate Program on the Environment
