

## **APPLICATIONS NOW OPEN**

### **Washington Sea Grant**

### **Science Communications Fellowship**

### **Winter-Spring 2017**

Science needs good stories! Washington Sea Grant will offer a paid, two-quarter communications fellowship that will enable students to build portfolios that help them gain recognition as writers and communicators by sharing marine knowledge with WSG's diverse audiences. Fellows may write features for *Sea Star*, manage a media list, blog about coastal research or develop their own multimedia projects to connect people with marine science that matters.

Graduate and upper-level undergraduate students in any field from Washington universities and colleges may apply. Applicants must demonstrate strong writing skills, a good general grounding in the sciences, and a special interest in marine science, education or policy.

**Application Deadline - November 18, 2016**
