

MiT MASTER IN TEACHING PROGRAM

REMEMBER YOUR FAVORITE TEACHER?

Become that person...

the evergreen
state college

MIT alumnus
Ryan Reilly '07 in his
classroom in Seattle, WA.

A photograph of a classroom. A female teacher with glasses and a striped sweater is leaning over a desk, smiling at a female student in a teal hoodie. The student is looking up at the teacher. In the background, other students are seated at desks, and various educational posters are on the wall.

Avi Barnes MIT '04
Currently teaching for
the Highline School
District of Burien, WA.

The Evergreen State College Master in Teaching Program

Why teach?

- Give every child a chance at a quality education.
- Make a difference that will last a lifetime.
- Take advantage of increasing job opportunities.

"I joined the MiT program because I compared it to countless other teacher preparation programs, and it simply provided the most clear, socially conscious focus of any of them."

John Joyce III (MiT 2014-2016)

Why Evergreen?

- Learn what social justice in the classroom means within Evergreen's renowned interdisciplinary curriculum and examine equity strategies for teaching.
- Experience two complete quarters of student teaching, unlike other certification programs. Be well prepared for your own classroom.
- Graduate with confidence. 97% of 2015 grads landed positions within two months of completing the program.

Become a student's favorite teacher.

- Visit the MiT website to understand the program's format and conceptual framework.
- Attend a free information session to learn how to prepare for and successfully apply to this unique program.
- Call or contact us online to make an individualized advising appointment or arrange to see a MiT class in action and talk with current candidates.

"From day one, Evergreen MiT graduates seem experienced beyond their years, and are prepared to apply a valuable range of skills and subjects to their work."

Steve Rood, North Thurston H.S. principal
