RE: Sue Crystal Memorial Fellowship Request

**Project Title:** Community by Design: 21<sup>st</sup> century participatory community development

**Project Statement**

This capstone project researches existing policies that impact 21<sup>st</sup> century sustainable and culturally relevant Tribal community development and delivers potential solutions through alternative, interactive and participatory design processes for stakeholders.

**Theory**

Through alternative participatory engagement processes of governance and decision making, viable policies can be developed to facilitate a sustainable quality of life for all communities.

**Applied Research**

My Capstone projects embodies integrative participatory processes that facilitates interaction between all stakeholders regardless of: socio-economic status, political orientation, gender identification, and National identity. Explores, researches,
